Thursday, January 7, 2016 6:30pm-8:30pm CCR&R	More Than Just Routine: Turn those Everyday Moments into the Extraordinary! Bonnie Gould, Infant Toddler Specialist	What does the word “curriculum” mean to you? If teaching skills and planning projects are the first ideas that come to mind, then this workshop will open your eyes to a new way of thinking about infant-toddler “curriculum.” Infant and toddler teachers spend a large part of the day engaged in routine caregiving responsibilities. These are key learning times! Participants will gain an understanding of why routines are essential to “curriculum” for infants and toddlers. Participants will learn how responsive and respectful one-on-one caregiving routines are opportunities for building relationships and learning, and how these routines are connected to culture and family values. Wednesday, January 20, 2016 6:30pm-8:30pm CCR&R	Choice & Preference: Preventing Power Struggles with Preschoolers Sonia Sumner, Behavioral Specialist	We all want to be in control of our own lives. But young children usually have very few opportunities to make choices about what they do and when they do it. They’re told when to get up, what to wear, what to eat and when to eat it, where to go and what to do when they get there. Introducing choice into a young child’s life can be a powerful tool to promote improved behavior in your classroom. Come learn the five steps to using the choice making strategy and discover how easily you can embed choice-making opportunities into your classroom and short-circuit power struggles with your preschoolers.
